

# Vivek Vishwanath Yadav

React.js Developer | Front End Developer

+91 8308120194 vivekyadav7875.vy@gmail.com  www.linkedin.com/in/vivekraj1201

## Summary

React.js Frontend Engineer with 1.5+ years of experience building web applications using React, Typescript, and modern state management tools. Skilled in API integration, performance optimization, and delivering responsive, user-friendly interfaces.

## Technical Skills

**Frontend:** React.js, JavaScript, TypeScript, HTML, CSS

**State Management:** Redux, Redux Toolkit, Context API, Valtio

**API & Data:** REST APIs, Axios, TanStack React Query

**UI & Styling:** Ant Design (AntD), Tailwind CSS, Material UI (MUI), Bootstrap, Responsive Design

**Data Visualization:** Recharts, Dashboard Development

**Tools:** Git, GitHub, Postman, VS Code, IntelliJ Idea

**Other Languages:** Python

## Work Experience

### Frontend React.js Developer | Sep 2024 - Present

Gyri Infotech, Kolhapur

- Built reusable components, reducing development time by 25%, modular UI components following scalable frontend architecture.
- Implemented advanced state management using Redux and Redux Thunk to handle complex applications.
- Integrating REST APIs and managing server-state using TanStack React Query.
- Debugging UI, performance, and state-related issues efficiently.

### Jr. Production Engineer | June 2019 - Present

Menon Bearings Ltd, Kolhapur

- Managed production operations with a focus on process efficiency and quality metrics.
- Collaborated cross-functionality to resolve issues using structured problem-solving and continuous improvement practices by implementing Poka-Yoke.
- Built & Developed Auto-forming machine which increases forming process efficiency by 250%

### Jr. Quality Engineer (Mechanical) | 2.5 Years

Anuraj Industries, Kolhapur

### Jr. Quality Engineer (Mechanical) | 1.1 Years

Ashok Engineers, Kolhapur

## Project Experience

### PPAP / PPM / Process Audit Management System [ Role: React.js Developer]

Client: FIAPL, Pune

- Developed an enterprise manufacturing quality platform based on PPAP, PPM, and Process Audit pillars
- Built customer complaint management forms, approval of workflows, and status tracking.
- Reduced manual paperwork by approximately 70% by digitizing quality and audit processes.
- Implemented vendor manufacturing planning and audit scheduling modules
- Created analytics dashboards using Recharts to visualize PPM and quality KPIs.
- Managed complex applications using Redux & Valtio.
- Integrated REST APIs using Axios and optimized data fetching with TanStack React Query
- Designed responsive UI using Ant Design and Tailwind CSS.

### GoFlirt AI – Mobile Application [ Role: React native Developer]

- Contributed to mobile UI logic and state management using React Native.
- Use Ai generated response render on screen.
- Worked on subscription flow implementation, including plan selection, validation, premium access control, and post-purchase navigation.
- Handled edge cases such as failed purchases, restore flows, and subscription state consistency.

## Education

Shivaji University, Kolhapur

B.E. Mechanical - 2015
